eDISCOVERY—3 credits

- Asynchronous Course
- View lectures and complete assignments on your own weekly schedule

Course Description: Increasingly, attorneys are becoming “general contractors” when it comes to certain highly technical areas of the law. This is certainly true of the practice of eDiscovery. Unless you have chosen to make eDiscovery the focus of your practice, you will most likely instead be charged with assembling—and then managing—the right team of attorney specialists, technologists, and allied professionals who will conduct the eDiscovery components of cases on your behalf and under your direction. Any attorney serving in such a capacity will need to know enough about the law and technical aspects of eDiscovery to assemble the right team, keep costs under control, and ensure that legal and ethical obligations to clients, the court, and opponents are met and discharged. This course endeavors to impart such “general contractor” knowledge and expertise.
